

Rainstick

1. Add the nails. Hammer the nails into the tube in a spiral pattern or in a random pattern. » Avoid placing the nails in straight lines down the tube!

2. Add the noisemakers. Firmly secure one of the endcaps to the tube (it's a good idea to glue it on!) » Pour your beans, rice, or pebbles into the tube. » Firmly secure the other end cap onto the tube.

3. Decorate! Add tissue paper, pom poms, stickers, pipe cleaners, or any decorations you would like. » Tilt and shake your new rainstick to hear cool sounds!

Supplies

1 cardboard tube

2 end caps for the tube

Nails that are almost as long as the tube is wide

Beans, rice, or pebbles

Hammer

Glue (optional)

Optional decorations:

Tissue paper

Pom poms

Glitter
